

Dans: Back To Front

Artist: Jewell Buddy & Miranda Lambert

Song: Today I Started Loving You Again

Miranda: Today I started loving you again
I'm right back where I've really always been

Buddy: I got over you just long enough to let my heartache mend
Then today, I started loving you again

Miranda: What a fool I was to think I could get by
With only these few millions tears I cry

Buddy: I should have known the worst was yet to come
And that crying time for me had just begun

Both: Cause today I started loving you again
I'm right back where I've really always been
I got over you just long enough to let my heartache mend
Then today I started loving you again

Both: Well today I started loving you again
I'm right back where I've really always been
I got over you just long enough to let my heartache mend
Then today I started loving you again
Then today I started loving you again
