

Dans: Come On Over
Artist: Daniel O'Donnell
Song: Come On Over To My Place

Little girl you look so lonesome
I see you all feeling blue
Ain't no use in staying home
I know what you should do

Come on over to my place
Hey girl we having a party
We'll be swinging dancing and singing
Baby come on over tonight

No you don't need the address
Find out where will be
You can have a hearing the music
Half away down the street

Come on over to my place
Come on we having a party
We'll be swinging dancing and singing
Baby come on over tonight

When we get tired of dancing
Things start getting slow
That's the real best a part of the evening
Turning the lights about low

Come on over to my place
Hey girl we having a party
We'll be swinging dancing and singing
Baby come on over tonight

Come on over to my place
Hey you we having a party
We'll be swinging dancing and singing
Baby come on over tonight

Come on over to my place
Hey you we having a party
We'll be swinging dancing and singing
Baby come on over tonight

We'll be swinging dancing and singing
Baby come on over tonight
