

Dans: Do It Again
Artist: The Derailers
Song: Just One More Time

Just one more time, I'll let you have your way with me
One more time, sweet darling, I'll have to set you free
You made me a prisoner and loving you's my crime
But I'll let you have your way just one more time

Just one more time, I'll let you walk back through that door,
One more time, from now on I'm keeping score
Your heart is full of poison but loving you's so fine
So I'll let you have your way just one more time

Leave me if you don't need me,
Go on and make up your mind
Never again will you hear me say
that I'll let you have your way just one more time

Just one more time, I'll let you have your way with me
One more time, sweet darling, I'll have to set you free
You made me a prisoner and loving you's my crime
But I'll let you have your way just one more time

Leave me if you don't need me,
Go on and make up your mind
Never again will you hear me say
that I'll let you have your way just one more time

Just one more time, just one more time, just one more time
