

Dans: East To West  
Artist: Modern Talking  
Song: From Coast To Coast

Oh lady, I'm close to lose you  
You're burning up my life, more and more  
Oh lady, I can't forget you  
I know I can't survive, like before  
Oh lady, I'll always miss you  
Oh I will swear to you that I love you

From coast to coast  
From east to west  
I know for sure  
You are the best  
Why does it feel so good with you  
Don't leave me here, what can I do?  
My world is in your hands, you'll see  
I love you till eternity

Oh lady, if this is heaven  
I'm not afraid of hell, I'm telling you  
Oh lady, my heart is lonely  
I know the time will tell, I tell the truth  
Oh lady, I'll always miss you  
Oh I will swear to you, that I love you

From coast to coast  
From east to west  
I know for sure  
You are the best  
Why does it feel so good with you  
Don't leave me here, what can I do?  
My world is in your hands, you'll see  
I love you till eternity

From coast to coast  
From east to west  
I know for sure  
You are the best

From coast to coast  
From east to west  
I know for sure  
You are the best  
Why does it feel so good with you  
Don't leave me here, what can I do?  
My world is in your hands, you'll see  
I love you till eternity

From coast to coast  
From east to west  
I know for sure  
You are the best  
Why does it feel so good with you  
Don't leave me here, what can I do?  
My world is in your hands, you'll see  
I love you till eternity

From coast to coast
