Artist: Kenny Chesney
Song: Living in Fast Forward

The body's a temple
That's what we're told
I treated this one like an old honky tonk
Greasy cheeseburgers
And cheap cigarettes
One day they'll get me if they ain't got me yet, 'cause

I've been livin' in fast forward
Hillbilly rockstar out of control
I've been livin' in fast forward
Now I need to rewind real slow

My friends all grew up
and they settled down
Nice little houses on the outskirts o' town
They work in their office
And drive SUVs
They pray for their babies
And they worry 'bout me

I've been livin' in fast forward
Hillbilly rockstar out of control
I've been livin' in fast forward
Now I need to rewind real slow

I'm always runnin', son-of-a-gunnin'
I've had a good time, it's true
But the way I been goin'
It's time that I tone it down just a notch or two

Oh yeah...

I've been livin' in fast forward
Hillbilly rockstar out of control
I've been livin' in fast forward
Now I need to rewind real slow

I've been livin' in fast forward
Hillbilly rockstar out of control
I've been livin' in fast forward
Now I need to rewind real slow

Yeah I need to rewind real slow...
Yeah I still got some miles to go...
