

Dans: Heart & Flowers
Artist: Dave Sheriff
Song: Hearts & Flowers

I wish you health & sunshine – hearts & flowers
All the things that help yourself
To while away the hours
We had a good time baby but that's all in the past

I always said that it was too good to last

Every night's a different story
And the days are just the same
You go out on the town
And try to play your cheatin' game
But the tail that you've been chasin'
Now has turned around on you
And i can turn and watch things
From a different point of view

I wish you health & sunshine – hearts & flowers
All the things that help yourself
To while away the hours
We had a good time baby but that's all in the past

I wish you health & sunshine – hearts & flowers
All the things that help yourself
To while away the hours
We had a good time baby but that's all in the past

I wish you health & sunshine – hearts & flowers
All the things that help yourself
To while away the hours
We had a good time baby but that's all in the past

I wish you health & sunshine – hearts & flowers
All the things that help yourself
To while away the hours
We had a good time baby but that's all in the past
