

Dans: Next To Me
Artist: Ilse de lange
Song: next To me

Forgive me, I seem a little careless
I'm trying, but I'm still so new to this
I'm learning, that I need to let it,
let it, let it be

but I'm scared, somehow I will mess it up
that my faith in love will never be enough
but your voice picks me up and rescues,
rescues, rescues me

and every time I try to see
I am losing sight of what is really there

I just want to feel like a ship on the ocean,
flying like a bird, floating in the air,
we don't need to chase any destination, baby
we can end up anywhere

you can be the anchor that keeps me grounded,
you can be my song and a summer breeze,
we don't need to chase any destination, baby
don't care where we're going
as long as you are next to me

you're strong, it's everything I'm leaning on
your hands, they keep pulling me along
if you show me I promise I am listening,
listen, listening

feels crazy, but I think we're breaking ground
feels love is something we have simply found
lets put it somewhere we can keep it,
keep keep it, keep it safe
'cause when I'm holding on too tight
I am missing out on what is really there
