

Dans: Red Hot Rock 'N' Roller

Artist: Dave Sheriff

Song: Red Hot Rock N Roller

Red hot rock n roller with your pony tail down your back
I'd like to get to know ya but they say I'm way off track
My eyes just watch your body – you know all the moves alright
Red hot rock n roller you just set this place alright

I see you at the dancehall every saturday night
Me & my buddies all think your outta sight
With your tight fittin jeans we can see you can really move
When the music's playin loud & you're getting in the groove
Fast songs slow songs to you its all a game
When it comes to getting down you just put them all to shame
And when the music stops everybody in the hall
Just stamp & clap & shout & holler more more more

Red hot rock n roller with your pony tail down your back
I'd like to get to know ya but they say I'm way off track
My eyes just watch your body – you know all the moves alright
Red hot rock n roller you just set this place alright

instr verse

Red hot rock n roller with your pony tail down your back
I'd like to get to know ya but they say I'm way off track
My eyes just watch your body – you know all the moves alright
Red hot rock n roller you just set this place alright

I even see you in my dreams can't get you outta my mind
When my head hits the pillow I'd be sure that I would find
That your face would appear and you'd be givin me a smile
And the next thing I know is that we're walkin down the aisle
All my buddies are there and they can't believe their eyes
As we're ridin to the sunset on my douglas dragonfly
Then I hear the bells a ringin and I wake up in pain
And find myself in my bed – I've bin dreamin again

Red hot rock n roller with your pony tail down your back
I'd like to get to know ya but they say I'm way off track
My eyes just watch your body – you know all the moves alright
Red hot rock n roller you just set this place alright

Red hot rock n roller with your pony tail down your back
I'd like to get to know ya but they say I'm way off track
My eyes just watch your body – you know all the moves alright
Red hot rock n roller you just set this place alright
Red hot rock n roller you just set this place alright
