

Dans: Red Hot Salsa  
Artist: Dave Sheriff  
Song: Red Hot Salsa

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

You float 'round the floor, like you're  
flying with gods in the winds  
Every time you go by I can  
feel my head starting to spin

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

You're a beautiful Lady and you  
move with such feeling and style  
And you light up the room every-  
time that you look up and smile

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain

Red hot! You're a red hot dancer  
When you swing your hips And you do the Salsa  
Rock forward and back And then you do it again  
Take a break, bend to the right  
And then you feel your body pain
