

Dans: Timeless Cha
Artist: Heather Myles
Song: Just Like Old Times

When it first starting ringing,
something told me not to pick up the phone
But I read down to answer,
there's too many long night alone
When I heard him morning life ,
O I new what is gone is mine
He said lets get together , Let it be like old times

We sad at a table , in a café we bin to before
Yes daddy miss me, coded stay wait anymore
And I left myself a wine, a lonely heart can feel so blind
We where sitting close together, just like old times

Just like old times, his hand hold in mine
He was side of the border, we left ours troubles behind
Just like old times, he must ticilia in life
He have me ride where he wanted
Just like old times

I try to forget the raisins we said good bay,
But my heart telling me, we now that old times don't lie

Just like old times, we left ours troubles behind
He have me right where he wanted, just like old times
He have me right where he wanted, just like old times
Just like old times
